Solar Serisi Poly200-210w

SOLAR POWER
Poly (200-210w)

GENEL

Performance
Rated power(Pmax) 200~210W
Power tolerance: 0~3%
Mechanical Characteristics
Solar Cells 54 cells(156mm*156mm)in a 6*9 matrix
connected in series
Junction Box Junction box with 4-terminal connection
block;IP65;Junction connector matches in MC4;
Fittings accepting 4mm2 diameter cable.
Diodes Three by-pass diodes included
Construction Front: High-transmission 3.2mm tempered glass;
Back: White Polyester;
Encapsulant: EVA.
Frame AL Alloy type 6063T5
(Anodized , Electrophoresis or Matt Oxidized?
Universal frame; Color: Silver or Black.
Weight 17.5Kg.
? 1.Module Warranty:25-year limited warranty of 80% power output;10-year limited warranty of 90% power output; 10-year limited warranty of materials and workmanship.
? 2.This data represents the performance of typical LINUO POWER modules, and are based on measurements made in accordance with STC.
